## Gel permeation chromatography (GPC) - Part 3: Water as eluent

---

| <b>Contents</b>  |                                       | <b>Page</b> |
|--|---------------------------------------|-------------|
| Foreword .....   |                                       | 3           |
| 1  | Scope .....                           | 3           |
| 2  | Normative references .....            | 4           |
| 3  | Terms and definitions .....           | 4           |
| 4  | Principle .....                       | 5           |
| 5  | Apparatus .....                       | 5           |
| 6  | Reagent (eluent) .....                | 7           |
| 7  | Calibration of the apparatus .....    | 8           |
| 8  | Sampling .....                        | 10          |
| 9  | Preparation for the test .....        | 10          |
| 10   | Analytical parameters .....           | 11          |
| 11   | Data acquisition and evaluation ..... | 11          |
| 12   | Precision .....                       | 14          |
| 13   | Test report .....                     | 15          |
| Annex A (normative) Conversion of experimental parameters for variant column sizes ..... |                                       | 19          |
| Annex B (informative) Example of a data sheet for a polymer standard .....               |                                       | 21          |
| Annex C (normative) Explanatory notes .....  |                                       | 22          |
| Bibliography .....   |                                       | 27          |
