

DIN EN ISO 13789:2008-04 (E)

Thermal performance of buildings - Transmission and ventilation heat transfer coefficients - Calculation method (ISO 13789:2007)

Contents		Page
22	Foreword	3
	Introduction	4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Transmission heat transfer coefficient	8
5	Ventilation heat transfer coefficient	11
6	Transmission heat transfer coefficient through unconditioned spaces	11
7	Heat transfer to adjacent buildings	12
8	Additional conventions	12
9	Report	14
	Bibliography	22
	Annex B (informative) Information on type of dimensions	16
	Annex C (informative) Ventilation airflow rates	18
	Annex A (normative) Temperature in an unconditioned space	15
