DIN EN 15629:2010-09 (E)

Steel static storage systems - Specification of storage equipment

Contents

Page

Foreword 4

0 Introduction 5

1 Scope 7

2 Normative references 7

3 Terms and definitions 7

4 Specification data of relevance to the supplier 11
4.1 Storage equipment planning 11
4.2 Storage system structural design 11
4.3 Storage equipment dimensioning 11
4.4 Storage equipment installation 11

5 Specification data of relevance to the user 12

6 Specific information to enable the project to be designed 12
6.1 General 12
6.2 Floor of the building 13
6.2.1 Floor specification 13
6.2.2 Information for the base plate and anchorage design 16
6.2.3 External floors 17
6.3 Rack-supported floors and mezzanines 17
6.4 Provision of edge guarding 19
6.5 Details of goods to be stored 19
6.5.1 Non-palletized goods 19
6.5.2 Palletized goods 19
6.5.3 Special loading accessories, e.g. box pallets, steel bins, skid pallets, roll containers, etc 20
6.5.4 Hazardous goods 20
6.6 Storage equipment design loads 20
6.6.1 General 20
6.6.2 Special considerations for mechanical loading 20
6.6.3 Method of operation 21
6.6.4 Impact provision requirements 21
6.6.5 Back stop specification 21
6.6.6 Pallet-buffering back stops 21
6.6.7 Pallet safety back stops 22
6.6.8 P&D stations 22
6.6.9 Imposed loads from handling equipment 22
6.6.10 Hand-loaded systems 22
6.7 Unit loads 22
6.7.1 Weight of unit loads 22
6.7.2 Overall dimensions 23
6.8 Non-uniform loads 23
6.9 Seismic, wind and snow loads 27
6.10 Environment 27

7 Support by, or very close to, another structure 28

8 Storage system configuration 28

8.1 Building plans 28
8.2 Precautions to reduce risk to personnel due to goods falling from racking or floors 29
8.3 Operational clearances 29
8.3.1 General 29
8.3.2 Racking classifications for pallet racking 30
8.3.3 Horizontal and vertical clearances for pallet racking 30
8.3.4 Aisle width dimensions 30
8.4 Drive-in racking 30
8.4.1 Clearances relating to the placement of pallets 30
8.4.2 Pallet specification 30
8.5 Passageways for pedestrians 30
8.6 Passageways for trucks under or through the racking structure 30
8.7 Means of escape 31
8.8 Free-standing upright protectors 31

9 Safety colours 31

10 Fire safety 31

11 Storage equipment inspections 32

Annex A (informative) Specifiers' and users' responsibilities 33

Annex B (informative) Suppliers' responsibilities 34
