

ISO 15927-3:2009-03 (E)

Hygrothermal performance of buildings - Calculation and pre sentation of climatic data - Part 3: Calculation of a driving rain index for vertical surfaces from hourly wind and rain data

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Terms, definitions, symbols and units	2
3	Calculation of airfield indices from hourly wind and rain data	4
4	Estimation of the effect of driving rain from average wind and present weather code for rain	4
5	Calculation of wall indices	5
Annex A (informative) Limits to the validity of the calculated indices		11
Annex B (informative) The nature of a "spell" of driving rain		12
Annex C (informative) The procedure for generating the driving-rain maps		13
Annex D (informative) Comparison of methods specified in Clauses 3 and 4		15
Bibliography		17
