DIN EN 14064-2:2010-06 (E)

Thermal insulation products for buildings - In-situ formed loose-fill mineral wool (MW) products - Part 2: Spec ification for the installed products

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms, definitions, symbols and abbreviations 5
3.1 Terms and definitions 5
3.2 Symbols and abbreviations 6

4 Requirements 6
4.1 General 6
4.2 Suitability of the building for the installation of the product 7
4.3 In-situ measurements and calculations 7
4.3.1 General 7
4.3.2 The installed declared thermal resistance of loft insulation 7
4.3.3 The installed declared thermal resistance of masonry cavity wall and frame construction insulation 7

5 Test methods 8
5.1 Conditioning 8
5.2 Testing 8
5.2.1 General 8
5.2.2 The installed declared thermal resistance of loft insulation 9
5.2.3 Thermal resistance of installed masonry cavity wall and frame construction insulation 10

6 Guidelines for installation 10

7 Installer's declaration 10

Annex A (normative) Lofts - Determination of installed insulation thickness - Pin and plate method 12

A.1 Apparatus 12
A.2 Procedure 12

Annex B (normative) Masonry cavity walls - Determination of average cavity width 14

B.1 Procedure 14
B.2 Calculation 14

Annex C (normative) Masonry cavity walls and frame constructions - Coverage test box 15

C.1 Apparatus 15
C.2 Procedure 15

Annex D (normative) Masonry cavity walls - Use of endoscope to check adequacy of fill 16

D.1 Selection of inspection positions by the inspector 16
D.2 Action to be taken by the inspector 16

Annex E (normative) Guidance for the installer - Suitability of the building, training, pre-checks and installation declaration 17

E.1 Lofts 17
E.1.1 Suitability of the building to receive the insulation product 17
E.1.2 Control tests made by the installer when preparing the product on site 17
E.1.3 Installation procedure 17
E.1.4 Installer's declaration 17
E.2 Masonry cavity walls 18
E.2.1 Suitability of the building to receive the insulation 18
E.2.2 Control tests made by the installer when preparing the product on site 19
E.2.3 Installation procedure 19
E.2.4 An example of a declaration form for use by the installer 20
E.3 Frame constructions 20
E.3.1 Suitability of the building to receive the insulation 20
E.3.2 Control tests made by the installer when preparing the product on site 21
E.3.3 Installation procedure 21
E.3.4 An example of a declaration form for use by the installer 21
