

# DIN EN 13859-2:2010-11 (E)

## Flexible sheets for waterproofing - Definitions and characteristics of underlays - Part 2: Underlays for walls

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| <b>1</b>        | <b>Scope .....</b>   | <b>5</b>    |
| <b>2</b>        | <b>Normative references .....</b>                                      | <b>5</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>                                     | <b>6</b>    |
| <b>4</b>        | <b>Product characteristics .....</b>                                   | <b>7</b>    |
| 4.1             | General .....  | 7           |
| 4.2             | Dimensions, straightness and mass per unit area .....                  | 7           |
| 4.3             | Application related characteristics .....                              | 7           |
| 4.3.1           | Reaction to fire .....   | 7           |
| 4.3.2           | Resistance to water penetration .....                                  | 7           |
| 4.3.3           | Water vapour transmission properties .....                             | 8           |
| 4.3.4           | Resistance to penetration of air .....                                 | 8           |
| 4.3.5           | Tensile properties .....   | 8           |
| 4.3.6           | Resistance to tearing .....  | 8           |
| 4.3.7           | Dimensional stability .....  | 8           |
| 4.3.8           | Flexibility at low temperature (pliability) .....                      | 8           |
| 4.3.9           | Artificial ageing behaviour .....                                      | 8           |
| 4.4             | Dangerous substances .....   | 9           |
| <b>5</b>        | <b>Testing .....</b>   | <b>9</b>    |
| 5.1             | Sampling .....   | 9           |
| 5.2             | Test methods .....   | 9           |
| 5.2.1           | Determination of dimensions, straightness and mass per unit area ..... | 9           |
| 5.2.2           | Determination of reaction to fire .....                                | 9           |
| 5.2.3           | Determination of resistance to water penetration Class W1 .....        | 9           |
| 5.2.4           | Determination of resistance to water penetration Class W2 .....        | 10          |
| 5.2.5           | Determination of water vapour transmission properties .....            | 10          |
| 5.2.6           | Determination of resistance to penetration of air .....                | 10          |
| 5.2.7           | Determination of tensile properties .....                              | 10          |
| 5.2.8           | Determination of resistance to tearing (nail shank) .....              | 10          |
| 5.2.9           | Determination of dimensional stability .....                           | 10          |
| 5.2.10          | Determination of flexibility at low temperature (pliability) .....     | 10          |
| 5.2.11          | Determination of resistance to artificial ageing .....                 | 10          |
| <b>6</b>        | <b>Evaluation of conformity .....</b>                                  | <b>11</b>   |
| 6.1             | General .....  | 11          |
| 6.2             | Initial type testing .....   | 11          |
| 6.2.1           | General .....  | 11          |
| 6.2.2           | Sampling .....   | 11          |
| 6.2.3           | Test results .....   | 11          |
| 6.3             | Factory production control (FPC) .....                                 | 11          |
| 6.3.1           | General .....  | 11          |
| 6.3.2           | Frequency of testing .....   | 12          |
| <b>7</b>        | <b>Product data sheet and designation .....</b>                        | <b>12</b>   |
| <b>8</b>        | <b>Marking, labelling and packaging .....</b>                          | <b>12</b>   |

|   |           |
|---|-----------|
| <b>Annex A (normative) Determination of tensile properties .....</b>  | <b>13</b> |
| A.1 General .....   | 13        |
| A.2 Apparatus .....   | 13        |
| A.3 Sampling .....  | 13        |
| A.4 Preparation of test specimens .....   | 13        |
| A.5 Procedure .....   | 13        |
| A.6 Expression and evaluation of results .....  | 14        |
| A.7 Test report .....   | 15        |
| <b>Annex B (normative) Determination of resistance to tearing .....</b>   | <b>16</b> |
| B.1 General .....   | 16        |
| B.2 Apparatus .....   | 16        |
| B.3 Sampling .....  | 16        |
| B.4 Preparation of test specimens .....   | 16        |
| B.5 Procedure .....   | 16        |
| B.6 Expression and evaluation of results .....  | 17        |
| B.7 Test report .....   | 17        |
| <b>Annex C (normative) Artificial ageing by exposure to UV and heat .....</b>   | <b>18</b> |
| C.1 General .....   | 18        |
| C.2 Principle .....   | 18        |
| C.3 Apparatus .....   | 18        |
| C.3.1 Apparatus for exposure to UV-A irradiation and elevated temperature .....   | 18        |
| C.3.2 Apparatus for exposure to heat .....  | 18        |
| C.4 Preparation of test specimens .....   | 18        |
| C.4.1 Dimensions of test specimens .....  | 18        |
| C.4.2 Number of specimens .....   | 18        |
| C.4.3 Conditioning of test specimens .....  | 19        |
| C.5 Procedure .....   | 19        |
| C.5.1 Exposure to UV irradiation and elevated temperature .....   | 19        |
| C.5.2 Exposure to heat .....  | 19        |
| C.5.3 Testing of resistance to water penetration and tensile properties after artificial ageing ....  | 19        |
| C.6 Expression of results .....   | 19        |
| C.7 Test report .....   | 19        |
| <b>Annex D (normative) Initial type test and frequencies of testing for factory production control .....</b>                                | <b>21</b> |
| <b>Annex E (informative) Example of a product data sheet .....</b>  | <b>22</b> |
| E.1 General information .....   | 22        |
| <b>Annex ZA (informative) Clauses of this European Standard addressing provision of the<br/>Construction Products Directive (CPD) .....</b> | <b>24</b> |
| ZA.1 Scope and relevant characteristics .....   | 24        |
| ZA.2 Procedures for attestation of conformity of underlays for walls .....  | 25        |
| ZA.2.1 Systems of attestation of conformity .....   | 25        |
| ZA.2.2 EC Declaration of conformity .....   | 28        |
| ZA.3 CE marking and labelling .....   | 29        |
| <b>Bibliography .....</b>   | <b>32</b> |
