

DIN EN 15599-2:2010-12 (E)

Thermal insulation products for building equipment and industrial installations - In-situ thermal insulation formed from expanded perlite (EP) products - Part 2: Specification for the installed products

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
3.1	Definitions	4
3.2	Symbols and abbreviations	5
3.2.1	Symbols used in this part of the standard	5
3.2.2	Abbreviations used in this part of the standard	5
4	Requirements	5
4.1	General	5
4.2	Thermal resistance	5
4.3	Installed declared insulation thickness	5
4.4	Cavity fill	6
5	In-situ measurements	6
5.1	Installed declared insulation thickness	6
5.2	Width of cavities	6
5.3	Cavity fill	6
6	Installer's declaration	6
