

DIN EN 15643-2:2011-05 (E)

Sustainability of construction works - Assessment of buildings - Part 2: Framework for the assessment of environmental performance

Contents		Page
Foreword		3
Introduction		4
1	Scope	7
2	Normative references	7
3	Terms and definitions	8
4	Principles	18
4.1	General	18
4.2	Objectives of assessment of the building	18
4.3	Approach to assessment of environmental performance	18
4.4	Relevance of technical and functional requirements	18
4.5	Consideration of the building life cycle	19
5	Requirements for assessment methods	19
5.1	General	19
5.2	Object of assessment and the system boundary	19
5.3	Functional equivalent	19
5.4	Type of data and their assignment to the building life cycle	20
5.4.1	Assignment of data to the building life cycle	20
5.4.2	Impacts and aspects specific to the building fabric during the building life cycle	22
5.4.3	Impacts and aspects specific to building in operation	22
5.4.4	Scenarios	22
5.5	Data quality	23
5.6	Verification	23
5.7	Transparency	23
5.8	Reporting and communication	23
5.8.1	General	23
5.8.2	Results of the assessment	23
5.8.3	Functional equivalent	26
5.8.4	Environmental requirements from client's brief and/or regulations	26
5.8.5	Technical and functional performance	26
6	Requirements for calculation methods for assessment of environmental performance of buildings	26
6.1	Overview of the methodology for assessment of environmental performance of buildings	26
6.2	Environmental indicators	27
6.3	Specific requirements for system boundary for assessment of environmental performance of buildings	27
Annex A (informative) Work programme of CEN/TC 350		28
Annex B (informative) Environmental indicators		29
B.1	Indicators included in the current versions of standards	29
B.1.1	Indicators for environmental impacts (LCIA impact categories)	29
B.1.2	Indicators for resource use (environmental aspects)	29

B.1.3	Indicators for other environmental information (environmental aspects)	29
B.2	Further indicators used in the current practice	30
B.2.1	Indicators for environmental impacts (LCIA impact categories)	30
B.2.2	Indicators for resource use (environmental aspects)	30
B.2.3	Indicators for other environmental information (environmental aspects)	30
Bibliography		31
