DIN EN 998-2:2010-12 (E)

Specification for mortar for masonry - Part 2: Masonry mortar

Contents

Page

Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Materials 8

5 Requirements 9
5.1 General 9
5.2 Properties of fresh mortar 9
5.2.1 Workable life 9
5.2.2 Chloride content 9
5.2.3 Air content 9
5.3 Proportion of constituents 9
5.4 Properties of hardened mortar 9
5.4.1 Compressive strength 9
5.4.2 Bond strength 10
5.4.3 Water absorption 10
5.4.4 Water vapour permeability 10
5.4.5 Density (dry hardened mortar) 11
5.4.6 Thermal conductivity 11
5.4.7 Durability 11
5.5 Additional requirements for thin layer mortars 11
5.5.1 General 11
5.5.2 Aggregates 11
5.5.3 Correction time 11
5.6 Reaction to fire 11
5.7 Mixing of mortar on site 12

6 Designation of masonry mortar 12

7 Marking and labelling 13

8 Evaluation of conformity 13
8.1 General 13
8.2 Initial type testing, ITT 13
8.2.1 Sampling 13
8.2.2 Reference test 13
8.2.3 Repeating of initial type test 14
8.2.4 Recording 14
8.2.5 Application of test methods 14
8.3 Factory Production Control, FPC 14
8.3.1 General 14
8.3.2 Process control 14
8.3.3 Finished product conformity 15
8.3.4 Statistical techniques 15
8.3.5 Traceability - marking and stock control of products 15

8.3.6 Non conforming products 15

Annex A (normative) Sampling for initial type testing and independent testing of consignments 16

A.1 General 16
A.2 Sampling procedure 16

Annex B (informative) Use of masonry units and masonry mortar 17

Annex C (normative) Characteristic initial shear strength of designed masonry mortars 19

Annex ZA (informative) Clauses of this European Standard addressing the provisions of EU Construction Products Directive 20

Bibliography 29
