DIN EN 15976:2011-07 (E)

Flexible sheets for waterproofing - Determination of emissivity

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Symbols 4

5 Principle of low emitting surfaces 5

6 Hemispherical blackbody radiator 6
6.1 Principle of hemispherical blackbody radiator 6
6.2 Description of hemispherical blackbody radiator and of the specimen holder 7
6.3 Handling procedure of calibration standards 8
6.4 Calculation of the emissivity 9
6.5 Measurement range of hemispherical blackbody radiator 9

7 Sampling and preparation of the test specimens 9
7.1 Sampling 9
7.2 Dimensions and numbers of specimens 9
7.3 Preparation of specimens before testing 9

8 Procedure for measurement of specimens 9

9 Expression of the results 10

10 Emissivity after conditioning 10
10.1 Specialities of application related aging 10
10.2 Conditioning procedure 10
