Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Terms and definitions 3

4 Requirements 4
4.1 Environmental conditions 4
4.2 Conformity of the work with the design 4

5 Assembly/bonding 4

6 Assembly/bonding control 5
6.1 Assembly/bonding control requirements 5
6.1.1 General 5
6.1.2 Organization 5
6.1.3 Assembly -- Quality assurance system 6
6.2 Inspection and testing tables for assembling glass elements into or onto the framework with structural sealant 7

Annex A (normative) Dynamic peel test on structural sealant 13

Annex B (informative) Dynamic tensile test on structural sealant 15

Annex C (normative) Design guidance 17

Annex D (normative) Adhesion tests in assembly/bonding control 24

Annex E (informative) Compatibility with adjacent material 28

Annex F (normative) Skin-over time/elastomeric test 32
