Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Role of extended application in the classification process 8

5 Principles of establishing the field of application 9
5.1 General 9
5.2 Direct field of application 9
5.2.1 Reaction to fire 9
5.2.2 ~Fire resistance and/or smoke controlTM 9
5.2.3 External fire exposure to roofs 9
5.3 Extended field of application 9
5.3.1 General principles 9
5.3.2 Reaction to fire 9
5.3.3 ~Fire resistance and/or smoke controlTM 10
5.3.4 External fire exposure to roofs 10
5.4 Combination of parameter variations 11
5.5 Procedure for undertaking extended application 11

6 Information to be included in an extended application report 12

Annex A (normative) Format for an extended application report Reaction to fire 14

Annex B (normative) ~Format for an extended application report -- Fire resistance and/or smoke controlTM 17

Annex C (normative) Format for an extended application report External fire exposure to roofs 20
