Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms,definitionsandsymbols 2
3.1 Termsanddefinitions 2
3.2 Symbols 4

4 Equipment 4
4.1 General 4
4.2 Test section support system 5
4.3 Measuringtube 5
4.4 Isolation of the test section 5
4.5 Measuring and recording devices 5
4.6 Additional equipment 6
4.7 Calibration 6

5 Planning of geohydraulic investigation and testing 6
5.1 General 6
5.2 Selection of testing locations 7
5.3 Selection of test procedure 7

6 Preparation of the test section and installation of equipment 14
6.1 Requirements for drilling and the test sections 14
6.2 Installationoffilter 15
6.3 Checking installation 15
6.4 Safety requirements 15
6.5 Decommissioning 15
6.6 Factorsinfluencingthetestresults 16

Annex A (informative)Examplesofpossibletestsectionisolationandsupportmethods 18

Annex B (informative) Examples of shape factors 24
