ISO/TR 13097:2013-06 (E)

Guidelines for the characterization of dispersion stability

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Termsanddefinitions 1

3 Basics of stability 3
3.1 Stability -- Summary 3
3.2 Characteristic features with regard to dispersion stability 4
3.3 Alteration of the state of a dispersion 4

4 Characterizing the change of the state of a dispersion 6
4.1 General comments 6
4.2 Direct methods 7
4.3 Correlative methods 8
4.4 Procedures to accelerate the evaluation of long-term stability 8

5 Prediction of the shelf life of a dispersion 10
5.1 General comments 10
5.2 Comparative analysis 10
5.3 Predictive analysis 10

Annex A (informative) A compilation of relevant international and national standards 12
