Foreword 4

1 Scope 5

2 Normative references 5

3 Terms, definitions, symbols and abbreviations 5
3.1 Terms and definitions 5
3.2 Symbols and abbreviations 6
3.2.1 Symbols used in this standard: 6
3.2.2 Abbreviations used in this standard 6

4 Requirements 7
4.1 General 7
4.2 Declared installed insulation thickness and declared installed insulation density for open blow applications (e.g. lofts) 7
4.3 Declared installed insulation thickness and declared installed insulation density for cavity applications (e.g. frame wall, roof and floor constructions) 7

5 Test methods 7
5.1 General 7
5.2 Declared installed insulation thickness 8
5.3 Declared installed insulation density 8
5.4 Frame method for the determination of declared installed density 8
5.5 Declared installed declared insulation density of cavity applications 8
5.5.1 Average cavity width 8
5.5.2 Machine output 8
5.5.3 Declared installed insulation density 8

6 Guidelines for installation 9

7 Installer's declaration 9

Annex A (normative) Open blow applications (lofts) - Determination of installed insulation thickness - Pin and plate method 10

A.1 Apparatus 10
A.2 Procedure 10

Annex B (normative) Cavity applications - Calculation for determining the declared installed insulation density in a construction 12

B.1 Procedure 12
B.2 Calculation 12

Annex C (normative) Cavity applications - Determination of average cavity width 13

C.1 Procedure 13
C.2 Calculation 13
C.3 Floors 13

Annex D (normative) Cavity applications - Test box density (method of checking the blown density before installation into the wall) 14

D.1 Apparatus 14
D.2 Procedure 14
D.3 Calculation 14

Annex E (informative) Example for installation guidelines 15

E.1 Lofts 15
E.1.1 Control tests made by the installer when preparing the product on site 15
E.1.2 Installation procedure 15
E.1.3 Installer's declaration 16
E.2 Walls 17
E.2.1 Suitability of the building to receive the insulation 17
E.2.2 An example of a declaration form for use by the installer 18
E.3 Frame constructions 18
E.3.1 Suitability of the building to receive the insulation 18
E.3.2 An example of a declaration form for use by the installer 19
E.4 Floors 19
E.4.1 Suitability of the structure to receive the insulation 19
E.4.2 An example of a declaration form for use by the installer 21
