## Standard tests for measuring reaction-to-fire of products and materials - Their development and application

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Development of reaction to fire tests .....	2
5	Fire development and growth .....	3
5.1	General context .....	3
5.2	Fire performance of products .....	4
6	Fire hazard assessment .....	5
6.1	A determination that a particular product can be potentially hazardous in a fire .....	5
6.2	An estimate of the ignitability of the product being ignited under particular conditions .....	6
6.3	Knowledge of the reaction of the product in various fire situations .....	6
6.4	Uses of reaction-to-fire tests in reducing fire hazard in different areas .....	7
7	Future developments and conclusions .....	8
Annex A (informative) Reaction-to-fire tests .....		10
Bibliography .....		19
