# ISO 13321:1996-07 (E)

**Particle size analysis_- Photon correlation spectroscopy**

## Contents

| | | Page |
|---|---|---|
| Introduction | | iv |
| **1** | Scope | **1** |
| **2** | Definitions | **1** |
| **3** | Symbols | **1** |
| **4** | Principle | **1** |
| **5** | Apparatus | **2** |
| **6** | Preliminary procedures | **2** |
| **7** | Measurement procedure | **3** |
| **8** | Calibration and validation | **4** |
| **9** | Repeatability | **4** |
| **10** | Test report | **4** |

**Annexes**

| | | |
|---|---|---|
| **A** | Computation of the average particle diameter and polydispersity index | **6** |
| **B** | Recommended test report form | **8** |
| **C** | Theoretical background | **10** |
| **D** | Typical PCS instruments and recommended specifications | **13** |
| **E** | Recommendations for sample preparation | **15** |
| **F** | Bibliography | **20** |
