

ISO 13321:1996-07 (E)

Particle size analysis_ - Photon correlation spectroscopy

Contents	Page
Introduction.....	iv
1 Scope.....	1
2 Definitions	1
3 Symbols	1
4 Principle	1
5 Apparatus	2
6 Preliminary procedures.....	2
7 Measurement procedure.....	3
8 Calibration and validation	4
9 Repeatability	4
10 Test report	4
Annexes	
A Computation of the average particle diameter and polydispersity index	6
B Recommended test report form	8
C Theoretical background	10
D Typical PCS instruments and recommended specifications	13
E Recommendations for sample preparation	15
F Bibliography	20
