DIN EN 1366-2:2015-09 (E)

Fire resistance tests for service installations - Part 2: Fire dampers

Contents

Page

Foreword 4

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 7

4 Test equipment 8
4.1 General 8
4.2 Connecting duct 8
4.3 Volume flow measuring station 9
4.4 Condensing unit 9
4.5 Gas temperature measuring devices 9
4.6 Exhaust fan system 9

5 Test conditions 9

6 Test specimen 10
6.1 Size 10
6.2 Number of tests 10
6.2.1 General 10
6.2.2 Supporting construction 10
6.2.3 Method of installation in the supporting construction 10
6.2.4 Method of installation on to the supporting construction 11
6.2.5 Method of installation away from the supporting construction 11
6.2.6 Blade pivot axis 11
6.2.7 Application with no ducting on one or both sides, where additional evidence of insulation in such applications is required 11
6.3 Design 11
6.3.1 General 11
6.3.2 Orientation to be tested 12
6.3.3 Fire dampers installed within a wall or floor opening 12
6.3.4 Fire dampers mounted on to the face of a wall or floor 12
6.3.5 Fire dampers mounted remote from a wall or floor 12
6.3.6 Application with no ducting on one or both sides, where additional evidence of insulation in such applications is required 12
6.3.7 Temperature sensing element 13

7 Installation of test specimen 13
7.1 General 13
7.2 Supporting construction 13
7.3 Minimum separation 14

8 Conditioning 14
8.1 General 14
8.2 Water-based sealing materials 14

9 Application of instrumentation 14
9.1 Thermocouples 14

9.1.1 Furnace thermocouples (plate thermometers) 14
9.1.2 Unexposed surface temperature 14
9.2 Furnace pressure 15
9.2.1 General 15
9.2.2 Pressure differential measurement, furnace and connecting duct 15

10 Test procedure 15
10.1 Determination of leakage of connecting duct and measuring station 15
10.2 Opening and closing test 15
10.3 Determination of leakage at ambient temperature 16
10.4 Fire test procedure 16

11 Performance criteria 17

12 Test report 18

13 Field of direct application of test results 19
13.1 Size of fire damper 19
13.2 Fire dampers installed within structural openings 19
13.3 Fire dampers installed onto the face of a wall or a floor 19
13.4 Fire dampers remote from a wall or floor 19
13.5 Fire from above 20
13.6 Separation between fire dampers and between fire dampers and construction elements . 20
13.7 Supporting constructions 20
13.8 Blade pivot axis 20
