

DIN EN 13914-1:2016-09 (E)

Design, preparation and application of external rendering and internal plastering - Part 1: External rendering

Contents		Page
European foreword		4
1	Scope	6
2	Normative references	7
3	Terms and definitions	8
4	Essential principles and building programme	11
4.1	Essential principles	11
4.2	Building programme	12
5	Materials	12
5.1	Types of render	12
5.2	Materials for site-made renders	14
5.3	Water	15
5.4	Materials for reinforcement, carrier and beads	15
5.5	Fixings	16
5.6	Firring	17
6	Design considerations	17
6.1	General	17
6.2	Factors affecting the design of the rendering system	17
6.3	Characteristics of background	18
6.4	Adequacy of the background	19
6.5	Durability of the render	20
6.6	Exposure conditions	21
6.7	Resistance to rain penetration	21
6.8	Resistance to water rising from the ground without pressure (capillary water)	22
6.9	Soluble salts	22
6.10	Effects of atmospheric pollution	22
6.11	Effects of freezing	22
6.12	Resistance to impact or abrasion	23
6.13	Corrosion of metals	23
6.14	Occurrence of cracking	23
6.15	Thermal considerations	26
6.16	Protection afforded by architectural features and functions	26
6.17	Selection of renders	36
6.18	Number, thickness and relative strength of coats	37
6.19	Types of finish	40
6.20	Colour and texture	40
7	Work on site, preparation and application of renderings	41
7.1	General	41
7.2	Storage of materials	41
7.3	Scaffolding	41
7.4	Protection of adjacent surfaces	41
7.5	Preparation of background	41
7.6	Proportioning of mix materials on site	44
7.7	Mixing on site	44
7.8	Forming architectural features	45

7.9	Application of the various coats	45
8	Maintenance and repair (other than restoration)	46
8.1	General	46
8.2	Inspection	47
8.3	Repairs to cracks	47
8.4	Repair of hollow or detached areas	47
8.5	Overcoming unsatisfactory appearance	48
8.6	Overcoming water penetration	49
Annex A(informative) Example on the selection of site mixed prescribed renders mixed in accordance with background type		50
A.1	General	50
A.2	Strong mixes	50
A.3	Moderately strong mixes	50
A.4	Weak mixes	50
Annex B(informative) Restoration of renders on old and historic buildings		51
B.1	General	51
B.2	Preliminary investigations	51
B.3	Preparatory work	53
B.4	Restoration systems and measures	53
B.5	Design	54
B.6	Application	54
Annex C(informative) Examples of products for reinforcement, carrier and beads		56
C.1	General	56
C.2	Figures	56
Annex D(informative) Examples of types of finish		60
