DIN EN 12211:2016-10 (E)

Windows and doors - Resistance to wind load - Test method

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principles of test 5

5 Apparatus 5

6 Preparation of test specimen 6
6.1 Set-up of the test specimen 6
6.2 Set-up of measuring devices for frontal deflection 6

7 Test procedure 6
7.1 Preliminaries 6
7.2 Deflection test 7
7.2.1 General 7
7.2.2 Positive pressure 7
7.2.3 Negative pressure 7
7.3 Repeated pressure test 7
7.4 Safety test 7

8 Deflection 8

9 Repeated pressure 8

10 Safety test 8

11 Test report 8

Annex A (informative) Deflection measurements 10

Annex B (informative) Resistance to wind load test sequence 14
