## Glass in building - Pendulum impact testing and classification of safety glass

---

| <b>Contents</b>  |                                      | <b>Page</b> |
|--|--------------------------------------|-------------|
| Foreword .....   |                                      | iv          |
| Introduction .....   |                                      | v           |
| 1  | Scope .....                          | 1           |
| 2  | Normative references .....           | 1           |
| 3  | Terms and definitions .....          | 2           |
| 4  | Test requirements .....              | 2           |
| 5  | Test method .....                    | 3           |
| 5.1  | Test apparatus .....                 | 3           |
| 5.2  | Calibration of test apparatus .....  | 12          |
| 5.3  | Test pieces .....                    | 12          |
| 5.3.1  | General .....                        | 12          |
| 5.3.2  | Dimensions of the test pieces .....  | 12          |
| 5.3.3  | Number of test pieces .....          | 12          |
| 5.3.4  | Preparation of the test pieces ..... | 12          |
| 5.4  | Impact test procedure .....          | 12          |
| 6  | Classification .....                 | 13          |
| 6.1  | General .....                        | 13          |
| 6.2  | Drop height class .....              | 14          |
| 6.3  | Mode of breakage .....               | 14          |
| 6.4  | Performance classification .....     | 14          |
| 7  | Test report .....                    | 15          |
| Annex A (normative) Method of fabrication of the shot bag impactor ..... |                                      | 17          |
| Annex B (normative) Calibration of the test rig .....                    |                                      | 23          |
| Annex C (normative) Sphere penetration test .....                        |                                      | 29          |
| Annex D (informative) Example of a test rig .....                        |                                      | 30          |
| Annex E (informative) Terms and definitions of glass types .....         |                                      | 33          |
| Annex F (informative) Example of release mechanism .....                 |                                      | 35          |
| Bibliography .....   |                                      | 40          |
