## Fire safety engineering - Requirements governing algebraic formulae - Part 6: Flashover related phenomena

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		1
4 <b>Symbols</b> .....		2
5 <b>Requirements governing description of physical phenomena</b> .....		2
6 <b>Requirements governing documentation</b> .....		2
7 <b>Requirements governing limitations</b> .....		2
8 <b>Requirements governing input parameters</b> .....		3
9 <b>Requirements governing domain of applicability</b> .....		3
<b>Annex A (informative) Algebraic formulae for calculating the minimum heat release rate to cause flashover in residential size enclosures</b> .....		4
<b>Bibliography</b> .....		18
