Geotechnical investigation and testing - Testing of geotechnical structures - Part 10: Testing of piles: rapid load testing

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms, definitions and symbols	2
3.1	Terms and definitions	2
3.2	Symbols	3
4	Testing equipment	4
4.1	General	4
4.2	Loading	4
4.3	Measurements	5
5	Test procedure	7
5.1	Preparation for testing	7
5.2	Safety and integrity requirements	8
5.2.1	People and equipment in the surrounding area	8
5.2.2	Test pile	8
5.3	Preparation of the pile	8
5.4	General preparation for testing	9
5.5	Working pile integrity after testing	9
6	Test results	9
7	Test reporting	10
Annex A (informative)	Analysis of rapid load test results	12
