

# DIN EN 16864:2017-11 (E)

## Building hardware - Mechatronic padlocks - Requirements and test methods

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1 Scope .....		6
2 Normative references .....		6
3 Terms, definitions and symbols .....		7
4 Requirements .....		10
Table 1 -- Bump and vibration requirements .....		11
Table 2 -- Environmental resistance MP .....		12
Table 3 -- Environmental resistance of electronic key for MP .....		13
Table 4 -- Mechanical codes .....		13
Table 5 -- Code attack resistance .....		14
Table 6 -- Audit trail and time zone .....		14
Table 7 -- Security requirements .....		16
5 Testing, assessment and sampling methods .....		18
Figure 1 -- Drill test rig .....		26
Figure 2 -- Shackle twisting test .....		27
Figure 3 -- Extraction of plug .....		28
Figure 4 -- Torque test .....		29
Figure 5 -- Shackle pulling arrangement .....		30
Figure 6 -- Sawing test .....		31
Figure 7 -- Shackle cutting test .....		32
Table 8 -- Shackle attack requirements .....		32
Table 9 -- Shackle dimensions .....		33
Figure 8 -- Gauge for measuring shackle accessibility .....		33
Figure 9 -- Impact on padlock body .....		34
Figure 10 -- Impact on padlock shackle .....		34

Figure 11 -- MP mounting arrangement .....	35
6        Classification system .....	37
Table 10 -- Classification system .....	38
Table 11 -- Examples of classification of MP .....	39
Table 12 -- Examples of classification of electronic key .....	39
7        Marking .....	39
Annex A (normative) Tool sets for attack resistance tests .....	40
Table A.1.....	40
Table A.2.....	41
Table A.3 .....	42
Annex B (normative) Table of test procedures .....	43
Table B.1 -- Test procedures for MP .....	43
Table B.2 -- Test procedures for electronic keys .....	44
