European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Critical parameters and factors 6
4.1 General 6
4.2 Common thermal and mechanical parameters and factors 6
4.3 Common constructional parameters and factors 7
4.4 Specific constructional parameters and factors 8

5 Methodology 9

6 Requirements, performance criteria and influences 15
6.1 Requirements and performance criteria 15
6.2 Influences 15

7 Assessment scheme 16
7.1 General 16
7.2 Requirement for additional tests 16

8 Test arrangements and criteria for additional tests 16
8.1 Maximum dimensions of ducts which can be classified 16
8.2 Closed ducts with pressure differential 17
8.3 Open horizontal duct B 17
8.4 Open vertical duct B 17
8.5 Additional rules 17

9 Evaluation of fire resistance 21
9.1 Application of the basic and additional test results 21
9.2 Suspension devices 21
9.3 Inspection openings/access panels 22
9.4 Components within ducts 23
9.5 Surface finishes 23
9.6 Change in wall or floor thickness 23

10 Extended application report 23
