DIN EN 16907-2:2019-04 (E)

Earthworks - Part 2: Classification of materials

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms, definitions, symbols and abbreviations 6
3.1 Terms and definitions 6
3.2 Abbreviations and symbols 7

4 Principles of classification 8

5 The process of description and classification 9
5.1 General 9
5.2 Description 10
5.3 Classification 11

6 Classification by intrinsic parameters 11
6.1 General 11
6.2 Definition of soil groups 12
6.3 Definition of rock groups 19
6.4 Use of other intrinsic properties 23

7 Classification by state parameters 23
7.1 General 23
7.2 Soil state properties 23
7.3 Rock state properties 24

8 Characteristics and tests for assessing earthworks materials in situ 25
8.1 General 25
8.2 Characteristics for execution of earthworks 26
8.3 Characteristics for material classification for use in earth structures 27

9 Sampling of soil and rock 27

10 Test standards to support classification 28

Annex A (informative) List of test standards relevant to earthworks as detailed in Clause 10 29
