DIN EN 16907-3:2019-04 (E)

Earthworks - Part 3: Construction procedures

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 General considerations 6
4.1 Prerequisites to execution of earthworks 6
4.2 Climatic conditions 6
4.3 Environmental factors 6
4.4 Use of secondary manufactured materials and recycled materials 7

5 Excavation 8
5.1 General 8
5.2 Material type and excavation techniques 8
5.3 Special considerations when excavating in rock 10
5.4 Influence of excavated material end use 11
5.5 Protection of cuts during construction 11
5.5.1 Stability during construction 11
5.5.2 Water control/drainage 12
5.5.3 Erosion 12
5.5.4 Protection of subgrade 12
5.6 Excavation under water 13
5.6.1 General 13
5.6.2 Equipment 13
5.6.3 Tolerance requirement 13
5.6.4 Underwater blasting 13
5.6.5 Supervision and monitoring 14
5.6.6 Environmental protection 14

6 Transportation 14
6.1 General 14
6.2 Bulk earthworks 15
6.2.1 General 15
6.2.2 Transportation on subgrade or capping layer 16
6.2.3 Haul road 16
6.3 Material type and bulk transportation 17
6.3.1 General 17
6.3.2 Dust 17
6.3.3 Protection of existing structures and buried utilities 18
6.4 Road lorries 18
6.5 Alternative transport methods 19
6.5.1 General 19
6.5.2 Transport on water 19
6.5.3 Transport on train 19
6.6 Transportation of materials arising from tunnelling 19

7 Filling and compaction 21
7.1 Groups of material 21
7.2 Compaction specifications 22

7.3 Preparation of fill area 22
7.4 Spreading 23
7.4.1 General 23
7.4.2 Compaction of embankment edges 25
7.4.3 Layer thickness 27
7.5 Compaction 27
7.5.1 General 27
7.5.2 Compaction equipment types 28
7.5.3 Selection of compaction equipment 28
7.6 Filling under-water 30
7.6.1 General 30
7.6.2 Execution 30
7.6.3 Fill material 32
7.6.4 Embankment slopes 32
7.6.5 Replacement / displacement of soft soil 33

Annex A (informative) Organization and execution of trial sections 34

Annex B (informative) Conditions of use for main groups of material 37

Annex C (informative) Excavation machine types 79

Annex D (informative) Transportation equipment types 81

Annex E (informative) Examples of national practices 82

Bibliography 85
