European foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Symbols and abbreviated terms 6

5 Principle 7

6 Apparatus 7
6.1 Large size devices 7
6.2 Extra large devices 8
6.3 Small size devices for use with rectangular plates 9
6.4 Small-size devices for use with cores 11

7 Sampling and sample preparation 11
7.1 Test portion 11
7.2 Sampling and manufacture 12
7.3 Thickness and surface regularity 13
7.4 Transport and storage of unmounted specimens 14
7.5 Sample preparation 14
7.6 Storage 14
7.7 Temperature probes 14

8 Procedure for carrying out a single measurement 15
8.1 Large size devices 15
8.2 Extra-large size device 16
8.3 Small size devices 16

9 Calculation and expression of results 17
9.1 Large size devices 17
9.2 Extra-large size device 18
9.3 Small size devices 19

10 Test report 22
10.1 Obligatory information 22
10.2 Complementary information 23

11 Precision 24
11.1 General 24
11.2 Laboratory prepared samples, proportional rut depth, large size devices 24
11.3 Samples cored from a pavement and laboratory prepared samples, wheel-tracking rate, small-size devices, conditioning in air 24
11.4 Samples cored from a pavement and laboratory prepared samples, wheel-tracking rate, small-size devices, conditioning in air, procedure B 25
