

# DIN EN 12390-12:2020-04 (E)

## Testing hardened concrete - Part 12: Determination of the carbonation resistance of concrete - Accelerated carbonation method

---

<b>Contents</b>		<b>Page</b>
European foreword .....		3
Introduction .....		5
1	Scope .....	6
2	Normative references .....	6
3	Terms and definitions .....	6
4	Principle .....	7
5	Reagents and apparatus .....	8
6	Production of concrete specimens .....	9
6.1	General .....	9
6.2	Making and testing concrete specimens .....	9
7	Carbonation depth measurements .....	10
8	Determination of the carbonation depth .....	10
8.1	General .....	10
8.2	Measuring the depth of carbonation on each test specimen .....	11
8.3	Appreciation of dense aggregates .....	11
8.4	Appreciation of pores and porous aggregates and extreme values .....	11
8.5	Expression of the Results .....	11
9	Test Report .....	12
10	Precision estimate .....	13
Annex A (informative) Guidance on storage chambers .....		15
