DIN EN 1004-1:2021-02 (E)

Mobile access and working towers made of prefabricated elements - Part 1: Materials, dimensions, design loads, safety and performance requirements

Contents

Page

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Classification 9
4.1 Load classes 9
4.2 Access classes 9
4.3 Height classes 9

5 Designation 10

6 Materials 10

7 General requirements 10
7.1 General 10
7.2 Dimensions 12
7.3 Openings within platforms 12
7.4 Side protection 12
7.5 Castor wheels 14
7.6 Access to platforms 15
7.7 Means for stabilizing 18
7.8 Connections 18
7.9 Working and access platform units 19
7.10 Erection and dismantling 19
7.11 Requirements for mobile access towers less than 2 m working platform height 19

8 Requirements for structural design 20
8.1 General 20
8.2 Characteristic actions on the complete structure including its parts 20
8.3 Characteristic actions on parts of the structure 21
8.4 Deflections 24

9 Structural design 24
9.1 Basic design principle 24
9.2 Structural analysis 25
9.3 Verification 28
9.4 Positional stability 30

10 Tests 31

11 Instruction manual 31

12 Marking 31
12.1 Components 31
12.2 Manufacturer's label 32

13 Assessment 32

Annex A(normative) Stiffness test on complete tower structure 33

Annex B(informative) A-deviations 36

Annex C(informative) Reduction of the wind load to equal members being upwind 37
