

DIN EN 1004-1:2021-02 (E)

Mobile access and working towers made of prefabricated elements - Part 1: Materials, dimensions, design loads, safety and performance requirements

Contents		Page
European foreword		4
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	7
4	Classification	9
4.1	Load classes	9
4.2	Access classes	9
4.3	Height classes	9
5	Designation	10
6	Materials	10
7	General requirements	10
7.1	General	10
7.2	Dimensions	12
7.3	Openings within platforms	12
7.4	Side protection	12
7.5	Castor wheels	14
7.6	Access to platforms	15
7.7	Means for stabilizing	18
7.8	Connections	18
7.9	Working and access platform units	19
7.10	Erection and dismantling	19
7.11	Requirements for mobile access towers less than 2 m working platform height	19
8	Requirements for structural design	20
8.1	General	20
8.2	Characteristic actions on the complete structure including its parts	20
8.3	Characteristic actions on parts of the structure	21
8.4	Deflections	24
9	Structural design	24
9.1	Basic design principle	24
9.2	Structural analysis	25
9.3	Verification	28
9.4	Positional stability	30
10	Tests	31
11	Instruction manual	31
12	Marking	31
12.1	Components	31
12.2	Manufacturer's label	32

13	Assessment	32
	Annex A(normative) Stiffness test on complete tower structure	33
	Annex B(informative) A-deviations	36
	Annex C(informative) Reduction of the wind load to equal members being upwind	37
	Bibliography	40
