ISO 13824:2020-03 (E)

Bases for design of structures - General principles on risk assessment of systems involving structures

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Fundamentals of risk assessment of systems involving structures 4

5 Establishment of structural engineering context 5
5.1 Structural engineering context 5
5.2 Establishment of design basis 5
5.3 Assessment of existing structures 5
5.4 Assessment of exceptional structures or extraordinary events 5
5.5 Providing support for decisions for other contexts 5

6 Definitionofthesystem 6
6.1 General 6
6.2 Functions of the system 6
6.3 Identification of the subsystems 6

7 Identificationofhazardsandundesirableconsequences 6
7.1 Identification of possible hazards 6
7.2 Identification of scenarios 6
7.3 Identification of undesirable consequences 6
7.4 Hazard screening 7
7.4.1 General 7
7.4.2 Hazard screening criteria 7

8 Risk estimation 7
8.1 Types of risk estimation 7
8.1.1 General 7
8.1.2 Qualitative estimation 7
8.1.3 Semi-quantitative estimation 8
8.1.4 Quantitative estimation 8
8.2 Data for risk estimation 8
8.2.1 Data collection 8
8.2.2 Treatment and modelling of uncertainty 8
8.3 Risk representation 8
8.4 Estimation of probability 9
8.4.1 General 9
8.4.2 Probability of occurrence of hazard 9
8.4.3 Probability of failure of structures 9
8.5 Estimation of undesirable consequence 9
8.6 Sensitivity and bounding analysis 9

9 Risk evaluation 10
9.1 Risk criteria 10

9.2 Risk acceptance 11

10 Evaluation of options for risk treatment 11
10.1 General 11
10.2 Determination of options 12
10.2.1 General 12
10.2.2 Risk avoidance 12
10.2.3 Risk reduction 12
10.2.4 Risk sharing 12
10.2.5 Risk retention 12
10.2.6 Emergency preparedness 12
10.3 Assessment of options for risk treatment 12
10.4 Risk treatment 13

11 Documentation 13

Annex A (informative) General framework of risk management process for systems involving structures 14

Annex B (informative) Principles in the implementation of risk assessment 19

Annex C (informative) Examples of extraordinary events and exceptional structures for risk assessment 26

Annex D (informative)Techniquesfortreatmentofexpertopinions 28

Annex E (informative)Examplesofquantitativeriskrepresentation 31

Annex F (informative) Formulae for risk estimation 35

Annex G (informative)Procedurefortheestimationofconsequences 39

Annex H (informative) Examples of measures for risk treatment 41

Annex I (informative)Examplesofapplicationofriskacceptanceandoptimization 44

Annex J (informative) Examples of risk estimation 50

Annex K (informative) Terrorism and malevolent events 55
