|-------------------------|--|-------------|
| European foreword ..... |  | 4           |
| Introduction .....      |  | 5           |
| 1                       | Scope .....  | 6           |
| 2                       | Normative references .....   | 7           |
| 3                       | Terms and definitions .....  | 8           |
| 4                       | Information needed for the execution of work .....                     | 10          |
| 4.1                     | General .....  | 10          |
| 4.2                     | Specific information .....   | 11          |
| 5                       | Ground investigation .....   | 12          |
| 5.1                     | General .....  | 12          |
| 5.2                     | Specific requirements .....  | 12          |
| 5.3                     | Field grouting trials and field tests .....                            | 13          |
| 6                       | Materials and products .....   | 13          |
| 6.1                     | General .....  | 13          |
| 6.2                     | Grout materials .....  | 13          |
| 6.2.1                   | Cement and hydraulic binders .....                                     | 13          |
| 6.2.2                   | Clay materials .....   | 13          |
| 6.2.3                   | Sands, gravels and fillers .....                                       | 14          |
| 6.2.4                   | Water .....  | 14          |
| 6.2.5                   | Chemical products and admixtures .....                                 | 14          |
| 6.3                     | Grouts .....   | 14          |
| 6.3.1                   | General .....  | 14          |
| 6.3.2                   | Suspensions .....  | 15          |
| 6.3.3                   | Solutions .....  | 15          |
| 6.3.4                   | Mortars .....  | 16          |
| 7                       | Execution design .....   | 16          |
| 7.1                     | General .....  | 16          |
| 7.2                     | Execution design basis and objectives .....                            | 16          |
| 7.3                     | Grouting principles and methods .....                                  | 17          |
| 7.3.1                   | Grouting without ground displacement (non-displacement grouting) ..... | 17          |
| 7.3.2                   | Grouting with ground displacement (displacement grouting) .....        | 18          |
| 7.4                     | Grout .....  | 20          |
| 7.4.1                   | Type and composition .....   | 20          |
| 7.4.2                   | General considerations .....   | 20          |
| 7.4.3                   | Parameters and criteria .....  | 21          |
| 7.4.4                   | Applicability .....  | 21          |
| 7.5                     | Grout placement .....  | 21          |
| 7.5.1                   | General .....  | 21          |
| 7.5.2                   | Drilling layout and borehole design .....                              | 22          |
| 7.5.3                   | Grouting sequence .....  | 23          |
| 7.5.4                   | Grouting pressure .....  | 23          |
| 7.6                     | Monitoring and control criteria .....                                  | 23          |
| 8                       | Execution .....  | 24          |

|       |  |    |
|-------|--|----|
| 8.1   | General .....  | 24 |
| 8.2   | Drilling .....   | 24 |
| 8.3   | Grout preparation .....  | 25 |
| 8.3.1 | Storage .....  | 25 |
| 8.3.2 | Batching and mixing .....  | 25 |
| 8.3.3 | Pumping and delivery .....   | 25 |
| 8.4   | Grout placement .....  | 26 |
| 8.4.1 | General .....  | 26 |
| 8.4.2 | Packers .....  | 27 |
| 8.4.3 | Special conditions .....   | 27 |
| 8.5   | Grouting sequences .....   | 27 |
| 9     | Supervision, testing and monitoring .....                                    | 28 |
