

DIN EN 12390-18:2021-09 (E)

Testing hardened concrete - Part 18: Determination of the chloride migration coefficient

Contents		Page
European foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Symbols	5
5	Principle	5
6	Apparatus and equipment	5
7	Preparation of specimens	8
7.1	Preparing sub-specimens	8
7.2	Preparing test specimens	9
8	Procedure	9
8.1	Installation of the test specimens in the migration cell	9
8.2	Installation of the migration cell in the migration apparatus	9
8.3	Test procedure	10
9	Test evaluation	13
9.1	Determination of the mean and maximum penetration depth	13
9.2	Determination of the chloride migration coefficient M_{ns}	13
10	Variations of the procedure	14
10.1	Specimens of sprayed mortar and sprayed concrete	14
11	Report	14
12	Precision estimate	15
Annex A (informative) Background to chloride migration testing		17
