DIN EN 16907-7:2021-09 (E)

Earthworks - Part 7: Hydraulic placement of extractive waste

Contents

Page

European foreword 4

Introduction 5

1 Scope 7

2 Normative references 8

3 Terms and definitions 9

4 Abbreviations 15

5 Development of hydraulic placement projects 15

6 Mine Waste Facility Characterization 17

7 Site and material characterization 17
7.1 General 17
7.2 Stages of the characterization process 18
7.3 Geotechnical characterization 20
7.4 Geochemical characterization 23

8 Extractive Waste Management Plan 28

9 Mine Waste Facility design, construction, operation and closure 28
9.1 Design objectives 28
9.2 Site selection 29
9.3 Design elements 31
9.4 Design parameters 32
9.5 Risk management 32
9.6 Selection of confining embankment section 32
9.7 Construction of confining embankments 34
9.8 Earth-structure design considerations 36
9.9 Seepage management considerations 36
9.10 Design of hydraulic deposition systems 37
9.11 Water management 39
9.12 Operation, Maintenance and Surveillance (OMS) Manual 41
9.13 Emergency planning 42
9.14 Closure 42

10 Construction quality control 44
10.1 General 44
10.2 Confining embankment Construction Quality Assurance (CQA) 44
10.3 Disposal quality control 45

11 Instrumentation and monitoring 45
11.1 General 45
11.2 Performance monitoring 47

12 Inspection regimes 48
12.1 General 48
12.2 Competence 49
12.3 Background data for inspection and reporting 49
12.4 Technical inspections 49
12.5 Independent inspection regimes 52

Annex A (informative) **Non-standardized geotechnical tests on hydraulic fill** **54**
Annex B (informative) **MWF phases** **71**
Annex C (informative) **Procedures for the construction of a MWF embankment** **73**
Annex D (informative) **Earth-structure design considerations** **74**
Annex E (informative) **Water reclaim options** **78**
Annex F (informative) **Contents of typical OMS manual** **80**
Annex G (informative) **Confining embankment CQA - Recommended testing frequency** **81**
Annex H (informative) **CQA monitoring of hydraulic fill deposits** **82**
Annex I (informative) **Instrumentation for a MWF** **84**
Annex J (informative) **Technical inspection frequency for a MWF** **87**
Annex K (informative) **Daily technical inspections** **88**
Annex L (informative) **Weekly technical inspections** **92**
Annex M (informative) **Programme for technical inspection and reporting** **93**
Annex N (informative) **Contents of a technical inspection report** **94**
Bibliography **96**
