

# DIN EN 16907-7:2021-09 (E)

## Earthworks - Part 7: Hydraulic placement of extractive waste

---

<b>Contents</b>	<b>Page</b>
European foreword.....	4
Introduction .....	5
1 Scope .....	7
2 Normative references.....	8
3 Terms and definitions .....	9
4 Abbreviations .....	15
5 Development of hydraulic placement projects .....	15
6 Mine Waste Facility Characterization.....	17
7 Site and material characterization .....	17
7.1 General.....	17
7.2 Stages of the characterization process.....	18
7.3 Geotechnical characterization.....	20
7.4 Geochemical characterization.....	23
8 Extractive Waste Management Plan.....	28
9 Mine Waste Facility design, construction, operation and closure.....	28
9.1 Design objectives.....	28
9.2 Site selection .....	29
9.3 Design elements.....	31
9.4 Design parameters.....	32
9.5 Risk management.....	32
9.6 Selection of confining embankment section .....	32
9.7 Construction of confining embankments .....	34
9.8 Earth-structure design considerations .....	36
9.9 Seepage management considerations .....	36
9.10 Design of hydraulic deposition systems .....	37
9.11 Water management.....	39
9.12 Operation, Maintenance and Surveillance (OMS) Manual.....	41
9.13 Emergency planning .....	42
9.14 Closure .....	42
10 Construction quality control.....	44
10.1 General.....	44
10.2 Confining embankment Construction Quality Assurance (CQA) .....	44
10.3 Disposal quality control.....	45
11 Instrumentation and monitoring.....	45
11.1 General.....	45
11.2 Performance monitoring.....	47
12 Inspection regimes .....	48
12.1 General.....	48
12.2 Competence.....	49
12.3 Background data for inspection and reporting.....	49
12.4 Technical inspections .....	49
12.5 Independent inspection regimes.....	52

<b>Annex A (informative)</b>	<b>Non-standardized geotechnical tests on hydraulic fill .....</b>	<b>54</b>
<b>Annex B (informative)</b>	<b>MWF phases.....</b>	<b>71</b>
<b>Annex C (informative)</b>	<b>Procedures for the construction of a MWF embankment.....</b>	<b>73</b>
<b>Annex D (informative)</b>	<b>Earth-structure design considerations .....</b>	<b>74</b>
<b>Annex E (informative)</b>	<b>Water reclaim options .....</b>	<b>78</b>
<b>Annex F (informative)</b>	<b>Contents of typical OMS manual.....</b>	<b>80</b>
<b>Annex G (informative)</b>	<b>Confining embankment CQA - Recommended testing frequency.....</b>	<b>81</b>
<b>Annex H (informative)</b>	<b>CQA monitoring of hydraulic fill deposits .....</b>	<b>82</b>
<b>Annex I (informative)</b>	<b>Instrumentation for a MWF .....</b>	<b>84</b>
<b>Annex J (informative)</b>	<b>Technical inspection frequency for a MWF.....</b>	<b>87</b>
<b>Annex K (informative)</b>	<b>Daily technical inspections.....</b>	<b>88</b>
<b>Annex L (informative)</b>	<b>Weekly technical inspections.....</b>	<b>92</b>
<b>Annex M (informative)</b>	<b>Programme for technical inspection and reporting .....</b>	<b>93</b>
<b>Annex N (informative)</b>	<b>Contents of a technical inspection report .....</b>	<b>94</b>
<b>Bibliography .....</b>		<b>96</b>
