ISO 22873:2021 (E)

Quality control for batching and mixing steel fibre-reinforced concretes

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Materials

4.1 Steel fibres
4.1.1 Classification
4.1.2 Shape
4.2 Admixture
4.3 Storage of fibres

5 Mixture proportioning

5.1 General
5.2 Proportioning methods

6 Batching

6.1 Measuring materials
6.2 Batching plant

7 Mixing

7.1 General
7.2 Mixer equipment
7.3 Mixing method
7.3.1 Add fibres to transit mix truck
7.3.2 Add fibres to aggregate on a conveyor belt

8 Quality

8.1 Slump and air content
8.2 Tolerances in slump
8.3 Tolerances in air content
