

DIN EN 12101-13:2022-11 (E)

Smoke and heat control systems - Part 13: Pressure differential systems (PDS) - Design and calculation methods, installation, acceptance testing, routine testing and maintenance; German Version EN 12101-13:2022

Contents		Page
European foreword		4
Introduction		5
1	Scope	6
2	Normative references	6
3	Terms and definitions	7
4	Design objectives	8
4.1	General	8
4.2	Protection of means of escape	8
4.3	Protection of firefighting routes	8
4.4	Property protection	8
4.5	Additional functions	8
5	Normative requirements	9
5.1	General	9
5.2	Application of Class 1 and Class 2	10
5.3	Response delay - time period definitions	10
5.4	Door opening force	12
5.5	Pressure differential systems	12
5.6	Pressurization systems	14
6	Interaction	29
6.1	General	29
6.2	Requirements	30
7	Equipment and components - specification and installation	31
7.1	General	31
7.2	Software based fire control systems	32
7.3	Automatic control of a PDS	32
7.4	Manual control of a PDS	32
7.5	Description of components and their requirements	34
8	Testing and measuring	43
8.1	General	43
8.2	Preconditions	43
8.3	Tests	44
8.4	Minimum number of tests; floor positions and other information	45
8.5	Test procedures	47
9	Additional considerations for design and testing	54
9.1	General	54
9.2	Parameters for consideration during design and performance testing	54
10	Documentation	55
10.1	General	55

10.2	Requirements by the authorities having jurisdiction	55
10.3	Technical description of the PDS	55
10.4	"As built/installed" information	55
10.5	Controls	56
10.6	Components list (inventory) and datasheets	56
10.7	Completion certification	57
11	Testing and Maintenance, design changes, faults, routine testing and operation	57
11.1	General	57
11.2	Records	57
11.3	Building design changes	58
11.4	Faults	58
11.5	Routine testing	59
11.6	Maintenance	61
Annex A (informative)	Calculation procedures	62
Annex B (informative)	Design example and possible calculation procedures	81
Annex C (informative)	Further information on wind and temperature effects	91
Annex D (informative)	Guidance for PDS design for buildings taller than 60 m	94
Annex E (informative)	(Example) PDS drawing	99
Annex F (informative)	Documentation and responsibilities in the process	100
Annex G (informative)	(Example) PDS concept report	103
Annex H (informative)	(Example) PDS test report	106
Annex I (informative)	Risk assessment - List of potential disturbances	114
Annex J (informative)	Practical suggestions for successful commissioning	116
Annex K (normative)	Labelling	117
Bibliography	118
