## Glass in building - Laminated glass and laminated safety glass - Part 1: Vocabulary and description of component parts

---

| <b>Contents</b>           |   | <b>Page</b> |
|---------------------------|---|-------------|
| <b>Foreword</b> .....     |   | <b>iv</b>   |
| <b>1</b>                  | <b>Scope</b> .....                                  | <b>1</b>    |
| <b>2</b>                  | <b>Normative references</b> .....                   | <b>1</b>    |
| <b>3</b>                  | <b>Terms and definitions</b> .....                  | <b>1</b>    |
|                           | 3.1 General.....                                    | 1           |
|                           | 3.2 Laminated glass and laminated safety glass..... | 2           |
| <b>4</b>                  | <b>Description of component parts</b> .....         | <b>4</b>    |
|                           | 4.1 General.....                                    | 4           |
|                           | 4.2 Glass composition and type.....                 | 4           |
|                           | 4.2.1 General.....                                  | 4           |
|                           | 4.2.2 Glass composition.....                        | 4           |
|                           | 4.2.3 Glass type.....                               | 4           |
|                           | 4.2.4 Other characteristics of glass.....           | 5           |
|                           | 4.3 Plastic glazing sheet material.....             | 5           |
|                           | 4.4 Interlayers.....                                | 5           |
|                           | 4.5 Films, plates, wires and grids.....             | 5           |
| <b>Bibliography</b> ..... |   | <b>6</b>    |
