DIN 24041:2022-06 (E)

Perforated plates - Dimensions

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Symbols and abbreviations 5

5 Dimensions, designations 5
5.1 Type of perforations 5
5.2 Dimensions 9
5.3 Designation 9

6 Material 10

7 Weight 10

Annex A (normative) Technical delivery conditions for perforated plates and coils 25

A.1 Length and width 25
A.2 Plate thickness 26
A.3 Perpendicularity of perforated plates cut to size 26
A.4 Parallelism 27
A.5 Sabre edges 27
A.6 Flatness 29
A.6.1 Flatness tolerances 29
A.6.2 Measuring method 29
A.7 Wavy edges 30
A.8 Unperforated areas 30
A.9 Tapered perforation cross-section 31
A.10 Punching burr and shearing burr 31
A.11 Punch break 32
A.12 Start and end of perforated area 32
A.13 Lubricant residues 33
A.14 Surface finish 33
A.15 Further processing 33

Figures Figure 1 -- Round perforations in staggered rows -- Rv 6

Figure 2 -- Round perforations in diagonally staggered rows -- Rd 6

Figure 3 -- Round perforations in straight rows -- Rg 6

Figure 4 -- Square perforations in staggered rows -- Qv 7

Figure 5 -- Square perforations in diagonally staggered rows -- Qd 7

Figure 6 -- Square perforations in straight rows -- Qg 7

Figure 7 -- Slotted perforations in staggered rows -- Lv 8

Figure 8 -- Slotted perforations in straight rows -- Lg 8

Figure 9 -- Slotted perforations in straight rows, with corners -- Lge 8

Figure 10 -- Hexagonal perforations in staggered rows -- SKv 9

Figure A.1 -- Dimensions (example) 25

Figure A.2 -- Perpendicularity tolerance u of the perforated plate 27

Figure A.3 -- Parallelism 27

Figure A.4 -- Example of sabre edges 28

Figure A.5 -- Example of sabre edges of a perforated plate after cutting 28

Figure A.6 -- Flatness tolerances 29

Figure A.7 -- Standard design 30

Figure A.8 -- Special design to avoid cumulative errors 30

Figure A.9 -- Tapered perforation cross-section 31

Figure A.10 -- Punching burr and shearing burr 32

Figure A.11 -- Normally staggered rows of perforations (complete perforation pattern) 33

Figure A.12 -- Double staggered rows of perforations (incomplete perforation pattern) 33

Tables Table 1 -- Round perforations, dimensions 11

Table 2 -- Square perforations, dimensions 15

Table 3 -- Slotted perforations, dimensions 18

Table 4 -- Hexagonal perforations, dimensions 22

Table A.1 -- Nominal length, nominal width and tolerances of a perforated coil material (face cut) or a sheet (not cut) 25

Table A.2 -- External dimensions of perforated plates (cut) 26

Table A.3 -- Width tolerances for unperforated margins for fixed dimensions 26

Table A.4 -- Perpendicularity tolerances 26

Table A.5 -- Limit values for sabre edges 28

Table A.6 -- Flatness tolerances for machine-levelled plates with no or narrow unperforated margin 29

Table A.7 -- Permissible burr height of standard perforation 32
