## Ceramic tiles - Installation - Part 3: Installation of large format porcelain tiles and panels by mechanical means onto a supporting structure

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Exchange of information .....	3
5	Workmanship .....	4
6	Ventilated façades .....	4
6.1	General .....	4
7	Methods of mechanical fixing for porcelain .....	5
7.1	General .....	5
7.2	Anchored systems .....	5
7.2.1	General .....	5
7.2.2	Bracket and strap attachment .....	6
7.2.3	Undercut drilling .....	7
7.2.4	Anchorage - pull-out testing of undercut anchors and edge fracture testing of slotted edge systems .....	7
7.3	Apertured tile systems .....	8
7.4	Edge slotted systems .....	9
7.4.1	General .....	9
7.4.2	Horizontal drift .....	10
7.4.3	Effect of frost .....	10
7.5	Visible overlapping clip systems .....	10
7.6	Off-site prefabrication .....	11
7.7	Cutting large format porcelain tiles or panels .....	11
7.7.1	Wet cutting .....	11
7.7.2	Scribe and break .....	11
8	Erection sequence .....	11
9	Setting out .....	12
9.1	General .....	12
9.2	Plumb and planarity .....	12
10	Fixings .....	12
11	Wind loads .....	12
11.1	Wind-load calculations .....	12
11.2	Wind-load testing .....	13
11.3	Components - wind-load resistance .....	13
11.4	Operational forces .....	13
12	Impact criteria and performance testing .....	13
12.1	General .....	13
12.2	Performance category .....	13

12.3	Impact resistance .....	14
12.4	Hard body impact testing .....	15
12.4.1	General .....	15
12.4.2	Equipment .....	16
12.4.3	Procedure .....	16
12.5	Soft body impact testing .....	16
12.5.1	General .....	16
12.5.2	Equipment .....	17
12.5.3	Procedure .....	18
12.6	Mesh backing .....	19
13	External corners and edge treatment .....	19
14	Thermal moisture and structural movement .....	20
14.1	General .....	20
14.2	Movement .....	20
14.2.1	General .....	20
14.2.2	Thermal movement .....	20
14.2.3	Moisture movement of a masonry structure to which a façade supporting metal framework is to be attached .....	21
14.2.4	Permeability to water .....	21
15	Durability and design life .....	21
15.1	General .....	21
15.2	Durability .....	21
15.3	Simplicity .....	22
16	Fixing large format porcelain tiles or panels façade systems support rails to a metallic subframe or directly to the building structure .....	22
16.1	Strength .....	22
16.2	Adjustment .....	22
17	Reaction to fire .....	23
18	Handling of materials .....	23
18.1	Size and weight .....	23
18.2	System training of installers .....	23
19	Storage and control of materials .....	23
19.1	Marking and packing .....	23
19.1.1	General .....	23
19.1.2	Protective packing .....	23
19.2	Delivery and handling .....	24
19.3	Storage of prefabricated components .....	24
19.3.1	General .....	24
19.3.2	Protection of work .....	24
20	Cleaning .....	24
21	Access for maintenance .....	24
21.1	General .....	24
21.2	Designing for access .....	25
22	Environmental Effects .....	25
22.1	Effect of weathering, atmospheric pollution and chemical attack .....	25
22.2	Effect of changes in temperature .....	25
22.3	Effect of sunlight .....	25
