## Geographic information - Schema for coverage geometry and functions - Part 1: Fundamentals

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
|                 | <b>Foreword</b> .....   | <b>v</b>    |
|                 | <b>Introduction</b> .....                                       | <b>vii</b>  |
| <b>1</b>        | <b>Scope</b> .....  | <b>1</b>    |
| <b>2</b>        | <b>Normative references</b> .....                               | <b>1</b>    |
| <b>3</b>        | <b>Terms, definitions, abbreviated terms and notation</b> ..... | <b>1</b>    |
|                 | 3.1 Terms and definitions.....                                  | 1           |
|                 | 3.2 Abbreviated terms.....                                      | 8           |
| <b>4</b>        | <b>Conformance</b> .....  | <b>8</b>    |
|                 | 4.1 Notation.....   | 8           |
|                 | 4.2 Interoperability and conformance testing.....               | 9           |
|                 | 4.3 Organization.....   | 9           |
| <b>5</b>        | <b>Coverages</b> .....  | <b>10</b>   |
|                 | 5.1 Overview.....   | 10          |
|                 | 5.2 Coverage packages.....                                      | 11          |
|                 | 5.3 Probing coverages: evaluate() function.....                 | 12          |
|                 | 5.4 Domain of a coverage.....                                   | 12          |
|                 | 5.4.1 Concept.....  | 12          |
|                 | 5.4.2 Coordinates.....  | 13          |
|                 | 5.4.3 Mathematical versus physical coordinates.....             | 14          |
|                 | 5.4.4 Coordinate reference systems and axes.....                | 14          |
|                 | 5.4.5 Coverage classification along topological dimensions..... | 16          |
|                 | 5.5 Range of a coverage.....                                    | 16          |
|                 | 5.6 Interpolation.....  | 17          |
|                 | 5.6.1 Concept.....  | 17          |
|                 | 5.6.2 Discrete and continuous coverages.....                    | 18          |
|                 | 5.7 Common point rule.....                                      | 19          |
|                 | 5.8 Realization variants.....                                   | 19          |
|                 | 5.8.1 Overview.....   | 19          |
|                 | 5.8.2 Geometry/value pair view.....                             | 19          |
|                 | 5.8.3 Domain/range view.....                                    | 20          |
|                 | 5.8.4 Partitioned view.....                                     | 21          |
|                 | 5.8.5 Functional view.....                                      | 21          |
|                 | 5.9 Envelope.....   | 21          |
| <b>6</b>        | <b>Multi-point coverages</b> .....                              | <b>22</b>   |
| <b>7</b>        | <b>Grid coverages</b> .....                                     | <b>23</b>   |
|                 | 7.1 Overview.....   | 23          |
|                 | 7.2 Grids.....  | 24          |
|                 | 7.2.1 Grid definition.....                                      | 24          |
|                 | 7.2.2 Grid axis types.....                                      | 27          |
|                 | 7.3 Rectified and referenceable grid coverages.....             | 30          |
|                 | 7.4 Grid cells.....   | 31          |
|                 | 7.4.1 Grid cell concept.....                                    | 31          |
|                 | 7.4.2 Pixel-in-centre, pixel-in-corner.....                     | 32          |
|                 | 7.5 Grid coverage.....  | 32          |
|                 | 7.6 Further grid coverage types.....                            | 33          |
| <b>8</b>        | <b>Multi-curve coverages</b> .....                              | <b>34</b>   |

|   |  |           |
|---|--|-----------|
| 8.1   | Overview .....                               | 34        |
| 8.2   | General multi-curve coverages .....          | 35        |
| 8.3   | Segmented curve coverages .....              | 35        |
| <b>9</b>  | <b>Multi-surface coverages .....</b>         | <b>36</b> |
| 9.1   | Overview .....                               | 36        |
| 9.2   | General multi-surface coverages .....        | 36        |
| 9.3   | Further surface coverages .....              | 37        |
| 9.3.1   | General .....                                | 37        |
| 9.3.2   | Thiessen polygon coverages .....             | 37        |
| 9.3.3   | Triangulated irregular networks (TINs) ..... | 38        |
| <b>10</b>   | <b>Multi-solid coverages .....</b>           | <b>39</b> |
| <b>Annex A (normative) Conformance tests .....</b>                          |  | <b>41</b> |
| <b>Annex B (informative) Interpolation methods .....</b>                    |  | <b>45</b> |
| <b>Annex C (informative) Sequential enumeration .....</b>                   |  | <b>49</b> |
| <b>Annex D (normative) Legacy data-centric coverage specification .....</b> |  | <b>60</b> |
| <b>Bibliography .....</b>   |  | <b>77</b> |
