# DIN 18948:2024-03 (E)

## Earthen boards - Requirements, test and labelling

## Contents

Page

Foreword ..... 4

1 Scope ..... 5

2 Normative references ..... 5

3 Terms and definitions ..... 6

4 Areas of application and types of earth building boards ..... 6
4.1 General ..... 6
4.2 Earth building boards for sheathing (A) ..... 7
4.3 Earth building boards for cladding (B) ..... 7

5 Constituents and production ..... 7

6 Requirements ..... 8
6.1 General ..... 8
6.2 Form, dimensions, and dimensional stability ..... 9
6.3 Density ..... 9
6.4 Mechanical properties ..... 10
6.4.1 Surface hardness ..... 10
6.4.2 Surface tensile strength ..... 10
6.4.3 Flexural strength ..... 10
6.5 Physical properties ..... 10
6.5.1 Dry mass ..... 10
6.5.2 Water vapour diffusion resistance ..... 10
6.5.3 Moisture tolerance ..... 10
6.5.4 Thermal conductivity ..... 11
6.5.5 Heat retention capacity ..... 11
6.5.6 Fire behaviour ..... 11
6.6 Content of harmful salts ..... 11

7 Designation ..... 11

8 Labelling ..... 12

9 Test methods ..... 12
9.1 General ..... 12
9.2 Form, dimensions, and dimensional stability ..... 12
9.2.1 Squareness ..... 13
9.2.2 Length and width ..... 13
9.2.3 Thickness ..... 14
9.2.4 Flatness ..... 14
9.3 Density ..... 15
9.3.1 Apparatus ..... 15
9.3.2 Procedure ..... 15
9.3.3 Evaluation and expression of results ..... 15
9.4 Mechanical properties ..... 15
9.4.1 Surface hardness ..... 15
9.4.2 Surface tensile strength ..... 16
9.4.3 Flexural strength ..... 16
9.5 Physical properties ..... 18

9.5.1 Water vapour diffusion resistance ..... 18
9.5.2 Thermal conductivity ..... 18
9.5.3 Heat retention capacity ..... 18
9.5.4 Fire behaviour/building material class ..... 18
9.6 Content of harmful salts ..... 18
9.7 Additional tests ..... 19

10 Delivery ticket ..... 19

11 Product data sheet ..... 19

Annex A (informative) Additional testing of earth building boards ..... 21

A.1 Moisture tolerance ..... 21
A.1.1 General ..... 21
A.1.2 Testing ..... 21
A.2 Water vapour adsorption ..... 23
A.2.1 General ..... 23
A.2.2 Testing ..... 23
A.2.3 Labelling ..... 24
A.3 Life cycle assessment ..... 24
A.3.1 General ..... 24
A.3.2 Environmental product declaration for earth building boards ..... 24
A.3.3 Recycling ..... 24
A.4 Naturally occurring radionuclide activity and activity concentration index ..... 25
A.4.1 General ..... 25
A.4.2 Procedure ..... 25
A.4.3 Evaluation ..... 25
A.4.4 Expression of results ..... 26

Annex B (informative) Earth building boards in systems ..... 27

B.1 System components ..... 27
B.1.1 General ..... 27
B.1.2 Sheathing ..... 27
B.1.3 Cladding ..... 27

Bibliography ..... 29

Figure 1 -- Obtaining test specimens from perforated boards ..... 17

Table 1 -- Dimensional stability classes of earth building boards ..... 9

Table 2 -- Density classes of earth building boards ..... 9

Table A.1 -- Moisture tolerance classes for earth building boards ..... 21

Table A.2 -- Water vapour adsorption classes for earth building boards ..... 23
