

# DIN EN 16637-2:2024-10 (E)

## Construction products - Assessment of release of dangerous substances - Part 2: Horizontal dynamic surface leaching test

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		6
1	Scope .....	7
2	Normative references .....	7
3	Terms and definitions .....	8
4	Symbols and abbreviations .....	12
4.1	Symbols .....	12
4.2	Abbreviations .....	12
5	Principle .....	13
5.1	General principle .....	13
5.2	Number of eluates .....	14
6	Reagents .....	15
6.1	General .....	15
6.2	Leachant .....	15
6.3	Rinsing solutions .....	15
7	Equipment .....	15
8	Sample preparation .....	16
8.1	Provisions on the laboratory sample .....	16
8.2	Provisions on test sample and test portion .....	17
8.3	Determination of the geometric surface area .....	18
9	Test procedure .....	20
9.1	Testing conditions .....	20
9.2	Step 1 of the leaching procedure .....	20
9.3	Steps 2-8 of the leaching procedure .....	21
9.4	Measuring the loss of weight .....	22
9.5	Further preparation of the eluates for analysis and analysis steps .....	22
9.6	Blank test .....	23
10	Evaluation of measurement results .....	23
10.1	Expression of results in concentrations .....	23
10.2	Expression of results in terms of area related release .....	23
10.3	Calculation of release mechanism .....	24
10.4	Calculating the loss of weight .....	24
11	Documentation and test report .....	25
12	Test performance .....	26
13	Indirect methods .....	26
13.1	Definition .....	26
13.2	Provisions .....	27

13.3	Examples of indirect methods .....	27
<b>Annex A (informative) Method for granular construction products with low hydraulic conductivity (GLHC) .....</b>		
		<b>28</b>
A.1	Scope .....	28
A.2	Terms, definitions and abbreviations .....	28
A.3	Principle .....	28
A.4	Equipment .....	28
A.5	Sampling .....	30
A.6	Procedure .....	30
A.7	Data handling and reporting .....	33
<b>Annex B (informative) Assessment of release mechanisms (if required) .....</b>		
		<b>34</b>
B.1	Overview of release mechanisms .....	34
B.2	Procedure of identification of release mechanisms .....	35
B.3	Concentrations close to the limit of quantification .....	36
B.4	Diffusion controlled release of a substance .....	38
B.5	Dissolution controlled release of a substance .....	40
B.6	Other release mechanism .....	41
B.7	Calculation of release .....	43
B.8	Examples .....	44
B.9	Interpretation of shortened DSL tests for FPC .....	60
<b>Annex C (informative) Examples of the test set up for construction products (DSL T) .....</b>		
		<b>63</b>
<b>Annex D (informative) Examples of data about the L/A ratio .....</b>		
		<b>64</b>
E.1	Repeatability and reproducibility limits .....	65
E.2	Inorganic substances .....	66
E.3	Organic substances .....	68
<b>Annex F (informative) Uncertainty in surface measurements with the aluminium foil method .....</b>		
		<b>70</b>
