ISO 7615-1:2024-09 (E)

Energy performance of building systems - Underfloor air distribution systems - Part 1: General overview

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols and subscripts 3

5 Technical specifications and considerations 4
5.1 Technical specifications 4
5.1.1 Major approaches to designing underfloor plenums 4
5.1.2 Major types of diffusers 4
5.1.3 Major types of underfloor terminal units 5
5.2 Technical performance consideration 6
5.2.1 Space air stratification 6
5.2.2 Thermal decay 6
5.2.3 Air leakage of underfloor plenum 6
5.2.4 Acoustic performance 7
5.3 Comfort consideration 7
5.4 Maintenance of conformity 7

Annex A (informative) Descriptions of different approaches in underfloor plenum designs 8

Annex B (informative) Descriptions of different types of underfloor diffusers 12

Annex C (informative) Descriptions of different types of perimeter terminal units in underfloor air distribution (UFAD) systems 17

Annex D (informative) Examples of underfloor air distribution (UFAD) system design 23
