Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Symbols 2

5 Principle 3

6 Test facility and instrumentation section 4

7 Apparatus 4
7.1 General 4
7.2 Metal frames 5
7.3 Sand burner and fuel supply 6
7.4 Weighing platform (Optional) 9
7.5 Assembly preparation 9
7.6 Instrumentation and videography 10
7.7 Data recording and processing 10

8 Calibration 11
8.1 Gas analyser system 11
8.2 Propane sand burner calibration 11
8.3 Heat flux exposure to parallel walls 12
8.4 Smoke measurement system 13
8.5 System response 13
8.6 Weighing platform (optional) 13

9 Test procedure and settings 13

10 Calculations and analysis 14

11 Test report 14

Annex A (informative) Literature background and performance guidance 16

Annex B (informative) Calorimeter design 19

Annex C (informative) Propane burner calibrations 23

Annex D (informative) Repeatability 27
