DIN EN 1995-3:2026-09 (E)

Eurocode 5 - Design of timber structures - Part 3: Execution

Contents

Page

European foreword 6

Introduction 7

1 Scope 10
1.2 Assumptions 10

2 Normative references 11

3 Terms, definitions, symbols and abbreviations 11
3.1 Terms and definitions 11
3.2 Symbols and abbreviations 13
3.2.1 Latin upper-case letters 13
3.2.2 Latin lower-case letters 13
3.2.3 Greek upper-case letters 14
3.2.4 Greek lower-case letters 14
3.2.5 Abbreviations 14

4 Documentation and inspection 15
4.1 General 15
4.2 Execution specification 15
4.3 Execution quality assurance 16
4.4 Inspection 16
4.5 Sample size, acceptance criteria and documentation of quality control 17
4.6 Action in the case of damage or deviations from the execution specification 17

5 Workmanship 17
5.1 General 17
5.2 Erection plan 18
5.3 Moisture control plan 18
5.4 Connections 18
5.4.1 General 18
5.4.2 Screwed connections and connections with rods with wood-screw thread 18
5.4.3 Other connections 19
5.5 Bonded connections 19

6 Geometrical deviations 19
6.1 General 19
6.1.1 Measuring geometrical deviations 19
6.1.2 Dimension adjustment for moisture content 20
6.1.3 Deviation limits for geometrical deviations 20
6.2 Deviation limits for cross section dimensions 20
6.3 Deviation limits for cutting and machining 20
6.4 Hole diameters for dowel-type fasteners 23
6.4.1 General 23
6.4.2 Hole diameters in metal 23
6.4.3 Hole diameters in wood 24
6.5 Offset of holes 24
6.6 Location of fasteners and shear connectors 24
6.6.1 Timber-to-timber and steel-to-timber connections 24
6.6.2 Panel-to-timber connections 26
6.7 Penetration of dowel-type fasteners 27

6.8 Prefabricated wall, floor and roof assemblies 29
6.9 Erected members and structures 29
6.10 Supports, anchorages and bearings 29
6.11 Carpentry joints 30

Annex A (informative) Inspection levels, sample size, acceptance criteria and documentation of quality control 31

A.1 Use of this annex 31
A.2 Scope and field of application 31
A.3 Inspection levels 31
A.4 Sample size, acceptance criteria and documentation 31
A.5 Documentation of quality control 33

Annex B (normative) Bonding 34

B.1 Use of this annex 34
B.2 Scope and field of application 34
B.3 General rules 34
B.4 Competency 35
B.5 Equipment and premises 35
B.6 Materials 36
B.6.1 Timber products for surface bonding 36
B.6.2 Screws and washers for surface bonding 36
B.6.3 Adhesives 36
B.7 Bonded-in rods 37
B.7.1 Pre-drilled holes 37
B.7.2 Rods 37
B.7.3 Bonding process 37
B.7.3.1 General 37
B.7.3.2 Procedure (i) 37
B.7.3.3 Procedure (ii) 38
B.7.3.4 Procedure (iii) 39
B.7.4 Tightening of groups of bonded-in-rods 40
B.8 Bonded-on wood-based panels and laminations 40
B.8.1 General 40
B.8.2 Surface preparation 40
B.8.3 Bonding process 41
B.8.4 Pressing 41
B.8.4.1 Hydraulic pressing 41
B.8.4.2 Screw-press bonding 41
B.9 Measures to ensure contact pressure between two members 44
B.10 Quality control 44
B.10.1 General 44
B.10.2 Documentation 44
B.10.3 Type and frequency of quality control for bonding operations 45
B.10.4 Applications of bonded-in rods 46

Annex C (informative) Timber foundation piles 48

C.1 Use of this annex 48
C.2 Scope and field of application 48
C.3 Data recording 48
C.4 Execution rules 48

Annex D (normative) Carpentry joints - deviation limits 50

D.1 Use of this annex 50
D.2 Scope and field of application 50
D.3 Dovetail connections 50
D.4 Single step connections 50
D.5 Mortise and tenon joints 50

Annex E (informative) Execution rules for tie-down connections for structures in seismic areas 51

E.1 Use of this annex 51
E.2 Scope and field of application 51
E.3 Number of fasteners at connections 51
E.4 Deviation limits of tie-down to foundations 51
E.5 Tie-down connection at inter-storey 52

Annex F (informative) Expanded tube connections 53

F.1 Use of this annex 53
F.2 Scope and field of application 53
F.3 Introduction 53
F.4 General 53
F.5 Adhesive 54
F.6 Bonding 54
F.7 Holes in DLW 54
F.8 Expansion procedure 55
F.9 Requirements for the dies 55

Annex G (informative) Moisture control plan 57

G.1 Use of this annex 57
G.2 Scope and field of application 57
G.3 Content of the Moisture Control Plan 57

Bibliography 58
