DIN EN 206-1:2026-07 (E)

Concrete - Specification, performance, production and conformity - Part 1: Performance, requirements, factory production control and assessment criteria for individual values

Contents

Page

European foreword 5

Introduction 7

1 Scope 10

2 Normative references 10

3 Terms and definitions 12
3.1 General 12
3.2 Constituents 16
3.3 Fresh concrete 18
3.4 Hardened concrete 21
3.5 Conformity and production control 21

4 Symbols and abbreviations 22

5 Classification 23
5.1 Exposure classes related to environmental actions 23
5.2 Classes for properties of fresh concrete 24
5.2.1 Consistence classes 24
5.2.2 Classes for additional properties of self-compacting concrete 25
5.3 Classes for properties of hardened concrete 27
5.3.1 Compressive strength classes 27
5.3.2 Density classes for lightweight concrete 28
5.3.3 Classes for fibre-reinforced concrete 29
5.4 Classes regarding CO2 emissions 29
5.4.1 Principle of classification 29
5.4.2 Calculation method 29
5.4.3 Classification 29

6 Requirements for concrete and methods of verification 30
6.1 Basic requirements for constituents 30
6.1.1 General 30
6.1.2 Cement 31
6.1.3 Aggregates 31
6.1.4 Mixing water 31
6.1.5 Admixtures 31
6.1.6 Additions 31
6.1.7 Fibres 32
6.2 Basic requirements for composition of concrete 32
6.2.1 General 32
6.2.2 Selection of binder composition 32
6.2.3 Selection of aggregates 33
6.2.4 Use of mixing water 33
6.2.5 Use of additions 34
6.2.6 Use of admixtures 36
6.2.7 Use of fibres 36
6.2.8 Chloride content 37

6.2.9 Cement, addition and water content and w/b ... 37
6.2.10 Concrete temperature ... 38
6.3 Requirements related to exposure classes ... 38
6.3.1 General ... 38
6.3.2 Limiting values for concrete composition ... 38
6.3.3 Performance-related methods ... 39
6.4 Requirements for fresh concrete ... 40
6.4.1 Consistence, viscosity, passing ability and resistance to segregation ... 40
6.4.2 Air content ... 40
6.4.3 Fibre content ... 41
6.5 Requirements for hardened concrete ... 41
6.5.1 Strength ... 41
6.5.2 Density ... 42
6.5.3 Resistance to water penetration ... 42
6.5.4 Reaction to fire ... 42

7 Specification of concrete ... 42
7.1 General ... 42
7.2 Specification for designed concrete ... 43
7.2.1 General ... 43
7.2.2 Basic requirements ... 43
7.2.3 Additional requirements ... 44
7.3 Specification for prescribed concrete ... 45
7.3.1 General ... 45
7.3.2 Basic requirements ... 45
7.3.3 Additional requirements ... 45
7.4 Specification of standardized prescribed concrete ... 45

8 Delivery of fresh concrete ... 46
8.1 Information from the user of the concrete to the producer ... 46
8.2 Information from the producer of the concrete to the user ... 46
8.3 Delivery ticket for ready-mixed concrete ... 47
8.4 Delivery information for site-mixed concrete ... 48
8.5 Mix adjustments after the main mixing process and prior to discharge ... 48

9 Factory production control and initial type testing ... 49
9.1 General ... 49
9.2 Production control systems ... 49
9.3 Recorded data and other documentation ... 50
9.4 Testing ... 51
9.5 Concrete composition and initial type testing ... 51
9.6 Personnel, equipment and installation ... 52
9.6.1 Personnel ... 52
9.6.2 Equipment and installation ... 52
9.7 Batching of constituents ... 53
9.8 Mixing of concrete ... 53
9.9 Production control procedures ... 54
9.9.1 General ... 54
9.9.2 Assessment of compressive strength ... 54
9.9.3 Assessment of equipment ... 57
9.9.4 Assessment of other properties ... 57

10 Assessment criteria for individual values ... 61
10.1 General ... 61
10.2 Assessment criteria for compressive strength ... 61
10.3 Assessment criteria for tensile strength ... 61
10.4 Assessment criteria for properties other than strength ... 62

11 Designation for designed concrete ... 64

Annex A (normative) Initial type test ... 65

Annex B (informative) Concrete families 68

Annex C (informative) Exposure classes from EN 1992-1-1 70

Annex D (informative) Guidelines for self-compacting concrete requirements in the fresh state 75

Annex E (informative) Recommendation for the use of aggregates 77

Annex F (informative) Limiting values of concrete composition 80

Annex G (informative) Guidance on reference concrete regarding CO2 emissions 82

Bibliography 84
