ISO 23945-2:2026-10 (E)

Test methods for sprayed concrete - Part 2: Sampling fresh and hardened concrete

Contents

Page

Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Principle **1**

5 Apparatus **1**
5.1 Mixer 1
5.2 Spraying equipment 1
5.3 Scoop 2
5.4 Trowel 2
5.5 Moulds 2
5.6 Coring or cutting equipment 2

6 Procedures **2**
6.1 General 2
6.2 Obtaining a fresh sample from the basic mix before spraying 2
6.3 Obtaining a fresh sample from in situ sprayed concrete 2
6.4 Making a test panel 3
6.5 Obtaining a fresh sample from a test panel 3
6.6 Curing 4
6.7 Obtaining a hardened sample from in situ sprayed concrete 4
6.8 Obtaining a hardened sample from a test panel 4
6.9 Shape and size of hardened samples 4

7 Identification of sample **4**
7.1 Fresh samples 4
7.2 Hardened samples 4

Bibliography **5**
